### Asset Allocation

### Risk Profile

Moderate  
You want to protect yourself from the ups and downs as much as possible and, in so doing, have as smooth a ride as is possible. But you know you need to take some risk to grow your capital. You have a medium to long-term investment horizon; you are looking for a diversified portfolio (ie, a portfolio that invests in a number of different asset classes to spread your risk), and one that offers real (after inflation) returns but with lower volatility. This fund would appeal to anyone nearing retirement (in the capital accumulation phase) and as well as after retirement (in the capital preservation phase)

## Portfolio Managers Comment

The FG SCI Saturn Moderate Fund of Funds returned +1.82% for the month of October, underperforming the benchmark peer group average which returned +2.00%. Global financial markets delivered another positive month in October, supported by strong corporate earnings, while the U.S. government shutdown created uncertainty by delaying key economic data releases. Inflation data was released with delays, showing an uptick to 3%, though still relatively contained, which alongside broader economic concerns led the Fed to cut interest rates by 0.25% to a range of 3.75%-4.00% – the lowest level since 2022. Global trade tensions also eased somewhat after the US and China agreed to a one-year trade truce involving tariff reductions and looser export controls, helping support risk appetite. Locally, domestic sentiment improved following South Africa's removal from the FATF grey list after satisfying all 22 outstanding compliance items, which should reduce compliance cost. Locally, inflation edged up to 3.4%, remaining below expectations and well within the SARB's target band. There was no SARB policy meeting held this month however next month's Medium Term Budget Policy Statement will be closely followed to see if National Treasury confirms the SARB's new inflation target of 3%, making it official. Local listed bonds (FTSE/JSE All Bond Index) returned +2.56% over the month. Local listed property (SAPY) was the best performing asset class, returning +7.84% over the month. Local listed equities (FTSE/JSE All Share) returned +1.64% over the month. The Matrix SCI Stable Income Fund was the worst performing underlying fund, returning +0.86% for the month. No Changes were made to the fund over the month.

## Fees and Total Expense Ratio

	Management Fee	TER	Transaction Cost	TIC
FG SCI Saturn Moderate Funds of Funds A	0.58%	1.46%	0.19%	1.65%
FG SCI Saturn Moderate Funds of Funds C	0.86%	1.72%	0.19%	1.91%

From 01 Jul 2022 to 30 June 2025, 1.46% (A Class) and 1.72% (C Class) of the value of the financial product was incurred as expenses relating to the administration of the financial product. 0.19% (A and C Class) of the value of the financial product was incurred as costs relating to the buying and selling of the assets underlying the financial product. Therefore 1.65% (A Class) and 1.91% (C Class) of the value of the financial product was incurred as costs relating to the investment of the financial product.

A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER can not be regarded as an indication of future TER's. Transaction Costs are a necessary cost in administering the Financial Product and impacts Financial Product returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of financial product, the investment decisions of the investment manager and the TER.

Effective 1 December 2024, SCI will charge a monthly administration fee of R23 (VAT Inclusive) on retail investors whose total investment value is less than R50 000. Clients with an active recurring monthly debit order will not be levied this fee.

## Risk Disclosures

The portfolio may include foreign investments and the following additional risks may apply: liquidity constraints when selling foreign investments and risk of non-settlement of trades; macroeconomic and political risks associated with the country in which the investment is made; risk of loss on foreign exchange transactions and investment valuation due to fluctuating exchange rates; risk of foreign tax being applicable; potential limitations on availability of market information which could affect the valuation and liquidity of an investment. All of these risks could affect the valuation of an investment in the fund.

## Mandatory Disclosures

All reasonable steps have been taken to ensure the information on this MDD is accurate. Collective Investment Schemes are generally medium to long term investments. The value of participatory interests or the investment may go down as well as up. Past performance is not necessarily a guide to future performance. Collective investment schemes are traded at ruling prices and can engage in borrowing and scrip lending. Collective investments are calculated on a net asset value basis, which is the total market value of all assets in the portfolio including any income accruals and less any deductible expenses such as audit fees, brokerage and service fees. Performance is based on NAV to NAV calculations with income reinvestments done on the ex-dividend date. Forward pricing is used. A schedule of fees and charges and maximum commissions is available on request from the manager. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. Fund of funds invest in portfolios of other Collective Investment Schemes that levy their own charges, which could result in a higher fee structure for the fund of funds. The individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. Sanlam Collective Investments (RF) (Pty) Ltd retains full legal responsibility for the Co-Naming portfolio. Transaction cutoff time is 15:00 daily. Each portfolio may be closed for new investments. Valuation time is 17:00 for fund of funds. Prices are published daily and available in local media as well as at [www.sanlamunittrusts.co.za](http://www.sanlamunittrusts.co.za).
