Risk Profile

Moderate
You want to protect yourself from the ups and downs as much as possible and, in so doing, have as smooth a ride as is possible. But you know you need to take some risk to grow your capital. You have a medium to long-term investment horizon; you are looking for a diversified portfolio (ie, a portfolio that invests in a number of different asset classes to spread your risk), and one that offers real (after inflation) returns but with lower volatility. This fund would appeal to anyone nearing retirement (in the capital accumulation phase) and as well as after retirement (in the capital preservation phase)

Portfolio Managers Comment

The FG SCI Saturn Moderate Fund of Funds returned +1.84% for the month of July, outperforming the benchmark peer group average which returned +0.66%. Global financial markets experienced volatility during the month as the ceasefire between the US and Iran came to an end, pushing oil prices higher and reigniting concerns about inflation. US inflation came in significantly lower than expected at 3.5%, down from 4.2% in the previous period and well below the consensus forecast of 3.8%. US employment data was weaker than anticipated, with non-farm payrolls coming in below expectations, while the unemployment rate decreased to 4.2%, largely due to a lower labour force participation rate of 61.5%. The US Federal Reserve kept interest rates unchanged at 3.5% to 3.75%. However, neither the accompanying statement nor the subsequent press conference provided clear guidance on the Fed's future policy direction, unsettling markets. Locally, South African inflation rose sharply to 5.0% from 4.5% in the previous month, significantly higher than market expectations of 4.7%. The South African Reserve Bank (SARB) unexpectedly left interest rates unchanged at its meeting in the final week of July. This decision surprised markets, particularly given the higher-than-expected inflation reading released two days earlier, as well as the renewed surge in oil prices following the re-escalation of the US-Iran conflict during the month. Local listed bonds (FTSE/JSE All Bond Index), came under pressure during the month, returning -1.38%. Local listed property (SAPY) was the best-performing asset class, returning 2.30%. Local listed equities (FTSE/JSE All Share Index) outperformed emerging market equities, with the MSCI Emerging Markets Index declining by 3.03%, while the local market returned 1.18%. The Abax Opportunity Fund (Nedgroup) was the best performing underlying fund, returning +3.87% for the month. No changes were made to the fund over the month.

Risk Disclosures

The portfolio may include foreign investments and the following additional risks may apply: liquidity constraints when selling foreign investments and risk of non-settlement of trades; macroeconomic and political risks associated with the country in which the investment is made; risk of loss on foreign exchange transactions and investment valuation due to fluctuating exchange rates; risk of foreign tax being applicable; potential limitations on availability of market information which could affect the valuation and liquidity of an investment. All of these risks could affect the valuation of an investment in the fund.

Mandatory Disclosures

All reasonable steps have been taken to ensure the information on this MDD is accurate. Collective Investment Schemes are generally medium to long term investments. The value of participatory interests or the investment may go down as well as up. Past performance is not necessarily a guide to future performance. Collective investment schemes are traded at ruling prices and can engage in borrowing and scrip lending. Collective investments are calculated on a net asset value basis, which is the total market value of all assets in the portfolio including any income accruals and less any deductible expenses such as audit fees, brokerage and service fees. Performance is based on NAV to NAV calculations with income reinvestments done on the ex-dividend date. Forward pricing is used. A schedule of fees and charges and maximum commissions is available on request from the manager. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. Fund of funds invest in portfolios of other Collective Investment Schemes that levy their own charges, which could result in a higher fee structure for the fund of funds. The individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. Sanlam Collective Investments (RF) (Pty) Ltd retains full legal responsibility for the Co-Naming portfolio. Transaction cutoff time is 15:00 daily. Each portfolio may be closed for new investments. Valuation time is 17:00 for fund of funds. Prices are published daily and available in local media as well as at www.sanlamunitrusts.co.za. Sanlam Collective Investments (RF) (Pty) Ltd, is the authorised Manager of the Scheme – contact 021 916 1800 or service@sanlaminvestments.com. FGAM is appointed to manage the fund on behalf of SCI and is an authorised Financial Services Provider in terms of the FAIS Act- contact 021 460 5007 or direct@fgam.co.za. Standard Bank is the trustee / custodian – contact sanlam@standardbank.co.za. The client can obtain, free of charge, additional information on the proposed investment including, but not limited to, brochures, application forms and the annual report and any half-yearly report from the Manager. Sanlam Collective Investments is a member of ASISA. Financial Advisor fees as agreed between the Investor and the Advisor may apply and payment to the Advisor will be facilitated on behalf of the Investor. A statement of changes in the composition of the portfolio during the reporting period is available on request. The EAC is a standard industry measure which has been introduced to allow you to compare the charges you incur and their impact on the investment returns over specific periods.

FGAM aggregates foreign investments within the GFM Global Equity Fund and the GFM Global Cautious Fund. The portfolio may therefore be invested in the GFM Global Equity Fund and the GFM Global Cautious Fund which are managed by Ci Global Fund Managers ICC, a wholly owned investment management company of SIP, established in Jersey and approved by the Central Bank of Ireland as investment manager, from time to time. Graviton Financial Partners (Pty) Ltd has been appointed as the Investment Advisor of the GFM Global Fund range, for which they earn an investment advisory fee of up to 0.345% on the A class and up to 0.3675% on the C class, on the value of investments in the Fund. Certain financial advisors/members of the FGAM investment committee are direct / indirect shareholders of the SIP Mauritius and Graviton Group of companies. As a shareholder, these individuals may earn direct or indirect dividends on the value of investments in the FGAM offshore fund. As investment manager of the Fund, CiGFM will earn an investment management fee of up to 0.565% on the A class and up to 0.6925% on the C class, on all such investments.
